

## **Constituent Document of Global Coalition Against Occupation of Palestine**

Highlighting the serious crimes, violations of international law and human rights, the unprecedented inhumane atrocities that have persisted since the first Nakba in 1948, which the (Zionist ) occupation continues to systematically commit against the Palestinian people, their property, land, social and cultural heritage , in view of the severity of the genocide , ethnic cleansing, crimes against humanity, war crimes that the occupation has relentlessly perpetrated, especially in Gaza over the past year, with the growing global protests against the occupation and its supporting policies, as well as the increasing global solidarity with the justice of Palestinian struggle and the rising support movements advocating Palestinian rights worldwide, and in light of the disturbing complicity and silence of many world governments in the face of the genocide being perpetrated by the occupation entity, particularly in Gaza and more broadly in Palestinian territories, it has become essential to mobilize this broad public engagement with the Palestinian cause by forming a global front to stand against the occupation's crimes and to support the legitimate struggle of the Palestinian people until they regain their freedom and sovereignty over their land.

Based on this reality, we call for participation in establishing the “Global Alliance Against the Occupation of Palestine” as a global, popular platform that unites free voices in support of Palestinian rights. This coalition will form an organized, targeted political force that can influence global public opinion, pressuring countries to change their biased policies toward "Israel" and fostering the widest possible international solidarity to support the resilience and struggle of the Palestinian people. It aims to empower Palestinians to exercise their rights as declared in the United Nations Charter, chief among them the right to self-determination and equality with other nations.

### **Main Objectives of the Coalition:**

1. Mobilize and Activate Global Efforts Against Occupation: Uniting movements, activities, and organizations supporting Palestine under a shared framework.

ساند - SANED

.2 Highlighting Occupation Crimes: Publicize the reality of the (Israeli) occupation, its policies of displacement and settlement, and confronting the (Zionist) narrative that distorts Palestinian resistance.

.3 Enhance Popular Solidarity: Activating global solidarity campaigns with the Palestinian people and expanding participation in them.

.4 Benefit from the legal and human rights framework: Support legal efforts to prosecute "Israeli" perpetrators of international crimes and hold the occupation legally accountable in international and national courts.

.5 Build an Informational Database: Collect and document the crimes and violations committed by the occupation against the Palestinian people, providing information to interested parties for raising awareness and amplifying solidarity campaigns.

### **Invitation to Join:**

We, the signatories of this document ; activists, organizations, associations, and coalitions from various nationalities, who have responded to the call of the Palestinian National Forum to establish the foundation of a global coalition against the occupation of Palestine , in support of the Palestinian people's cause and legitimate rights, call upon all movements, events, and international and popular organizations, as well as international humanitarian and human rights organizations, students and youth movements, labor and professional unions and associations, public figures, artists, academics, and all who believe in the justice of the Palestinian cause and support its struggle to join this coalition, participate in its formation, and engage actively with it.

The establishment of this coalition represents a significant step toward building a global movement that stands for truth and humanitarian justice. By joining us, your voice will be part of this global front of the world's free people. Together, we will be an effective and influential force, creating a new history based on human values, divine principles, and international laws.

Considering all the above, we announce the launch of this global coalition and invite everyone to join us and connect through our official channels. We will work to integrate your efforts into the coalition's common framework.
